THE BEGINNING

"Endurance, Heritage, and Discovery"

From the Red Sea coast to the Empty Quarter, for one week you will traverse 2000+ km of Saudi Arabia's most dramatic landscapes, driving through deserts, canyons, and UNESCO heritage sites, culminating at the Dakar Rally, the toughest motorsport event on earth.

Here, you will stand alongside distinguished patrons of adventure, motorsport connoisseurs, and global endurance aficionados. Guided by a Dakar racer, you will not just watch history, you will drive it, live it, and share it.

*Entry is reserved for only 15 seats worldwide.

THE INVITATION

Madcap Luxe curates extraordinary self-drive odysseys where adrenaline, heritage, and indulgence unite. Each expedition is a once-in-a-lifetime story, blending access to the world's most dangerous races with seamless luxury and cultural immersion.

Co-founded by Rannvijay Singha, Madcap Luxe is a global circle of adventurers, collectors, and patrons of speed. The Dakar Frontier is your passage into the sands of history — an immersion into the rally that defines endurance and legend.

GENESIS

Motorsport, to me, has always been about courage, camaraderie, and stories that live forever. The Dakar embodies all of this — it is not just a race, it is a testament to human spirit and endurance.

With Madcap Adventure, our aim is to take connoisseurs like you closer to these moments — not as spectators, but as participants. To live inside the rally, to share conversations with racers at the bivouac, and to feel the pulse of the desert beneath your wheels.

I look forward to welcoming you in Jeddah as we set out together on this once-in-a-lifetime journey — not as a guide, but as a fellow traveller in the Circle.

ASHISH RAORANE (DAKAR RACER) GROUP LEAD

When you're led by someone who's lived the legend, every kilometer turns into a story.

Meet Ashish Raorane, India's celebrated Dakar Rally racer, and one of the few privateers who took on the world's toughest rally raid with his own grit, discipline, and mechanical mastery.

On this expedition, Ashish will lead our convoy through the same deserts, dunes, and routes where legends of Dakar are made. Expect not just a drive — but an insider's walk into the heart of rallying — stories from bivouacs, strategy briefings, and the science behind surviving Dakar.

Get ready to see Saudi Arabia through the lens of a racer who's lived every heartbeat of this terrain.
